
PROCUREMENT CLAUSES

Buyer Procurement Clauses are designed to communicate specific requirements in regards to shipments to Buyer locations. Standard Clauses shall apply to all Purchase Orders and Contracts without specific reference. Custom Clauses shall be referenced by number on Contracts and/or Purchase Orders, as applicable. Any deviation from the Contract or Purchase Order requirements shall be approved in writing from Buyer.

Standard Clauses:

100	<p>Quality - General:</p> <ul style="list-style-type: none">• ISO 9000 - Seller shall meet all of the requirements of ISO 9001 or equivalent.• Sampling Plan – After process capability is known, supplier’s sampling plan shall meet or exceed the requirements of the Zero Acceptance Number Sampling Plans Standard (C=0). Sample sizes shall meet or exceed the minimum quantities at an AQL of 4.0 for all aerospace and military product and 10.0 for all commercial product. Reduced sample sizes may only be used once process performance reflects it as appropriate (i.e. Cpk > 1.0); in addition, a documented plan shall be in place to monitor changes in process capability and adjust inspection tables according to ongoing performance data. Any deviations from this plan shall be approved in writing by BUYER quality management. Sampling results shall be documented.• Notification of Non-Conforming Material – The Seller shall be responsible to notify Buyer, in writing, of any delivered non-conforming material in a timely manner. Notification shall include a clear description of the nonconformity, which includes as necessary parts affected, customer and/or organization part numbers, quantity and date(s) delivered. The Seller shall obtain a written waiver prior to delivering any product that is known to be non-conforming or repaired prior to delivery to Buyer.• Latest Revision – Unless otherwise specified on the purchase order, the Seller shall supply product conforming to the latest industry revision or the latest revision of the on file print or specification.• Part substitution - Parts shall not be substituted unless written an authorized Buyer representative provides authorization. All certifications shall reflect the part number listed on the purchase order.• Requirement for the supplier to flow down to sub-tier suppliers - the applicable requirements in the purchasing documents, including, but not limited to, key characteristics, record retention, personnel qualifications shall be flowed down to sub-tier suppliers at all levels of the supply chain.
110	<p>Packaging – Packing List: The following requirements shall be reflected on the Packing List, which shall be included with shipment.</p> <p>All documentation shall be legible/reproducible and include:</p> <ul style="list-style-type: none">• Seller’s name and address• Purchased Part Number• Manufacturer’s part number (If different from the Purchased Part Number)• Purchase Order Number• Date• Quantity• Lot Numbers• Serial numbers (When applicable)• Manufacturer’s name

	<ul style="list-style-type: none"> Country of Origin (Located on the packing slip or on the manufacturer labels on the product) <p>NOTE: An individual packing list shall be created for each purchase order in the shipment.</p>
111	<p>Packaging – Domestic General:</p> <ul style="list-style-type: none"> Multiple parts and/or manufacturer lots shall be adequately segregated to prevent mixed parts or lots. Multiple parts shall be adequately segregated or packaged to prevent "metal to metal" contact on finished surfaces. Part(s) subject to corrosion <u>must be</u> packaged and preserved with rust inhibitors. Metal banding shall not be used on shipments of finished parts. Vinyl or other non-metallic banding shall be used. It is permissible to use metal banding on shipments where non-metallic bandings are not strong enough to protect the shipment during transit; however, the banding may not be in direct contact with the finished part. Documentation for Multiple parts or manufacturer lots shall be separated and placed with appropriate lot of material. Parts shall be packaged to ensure that no damage occurs during the shipping process. – Note: The use of expanded polystyrene (Foam Peanuts) is prohibited. Staples shall not be used to seal bags. Tape or other non-metallic methods shall be used to prevent the potential for FOD (Foreign object damage) BUYER reserves the right to refuse any shipment that is damaged or does not comply with packaging requirements. Marking media color shall contrast the label or container color. Any life-limited or material requiring special handling shall be packaged and labeled in accordance with industry-accepted standards. Any Electrostatic Discharge product shall be shipped in ESD packaging. All kits shall have a list of kit components in each individual box. Unless otherwise specified, individual boxes shall not exceed 40 lbs. All o-rings shall be packaged 1 per unless otherwise specified.
112	<p>Packaging – Domestic Outer Bar-Coding:</p> <p>The following information shall be bar-coded on the outside of each package. If the supplier is not capable of bar-coding, they shall agree on a standard label type with BUYER.</p> <ul style="list-style-type: none"> Part Number BUYER Purchase Order Number Quantity Mfr. Lot Number Multiple box identification (Box 1 of 2, Box 2 of 2, etc.) For multiple boxes, indicate which box contains packing slip/certification Individual box weight in pounds shall be prominently displayed <p>Sample Exterior Label:</p>

- 125) 252.247-7024 Notification of Transportation of Supplies by Sea.
- 126) 252.249-7002 Notification of Anticipated Contract Termination or Reduction.

FAR SUBPART 22.4 Labor Standards for Contracts Involving Construction.

Seller agrees that all supplies and services herein ordered shall be manufactured or performed and furnished in accordance with all applicable requirements of the statutes referenced in this rider and they are hereby incorporated by reference all representations and stipulations required by said statutes and the regulations issued thereunder by the Secretary of Labor, whose applicable rulings and interpretations are binding on seller:

(1) Davis Bacon Act (40 U.S.C. 3141 *et seq.*).

(2) Copeland Act (18 U.S.C. 874 and 40 U.S.C. 3145)

	<p>(3) Walsh Healy Public Contracts Act (41 USC 34-45). (4) Service Contract Act (41 USC 351). (5) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701 <i>et seq.</i>).</p> <p>Acknowledgment of purchase orders/subcontracts issued as the result of a United States Government prime contract or subcontract shall be in accordance with the provisions of the Defense Priorities and Allocations Systems Regulation (15 CFR Part 700) governing rated orders. Failure to provide acknowledgment within the allotted time frame and in manner prescribed therein shall constitute acceptance of the order/subcontract and all terms and conditions set forth therein.</p> <p>Further information is available at the following links:</p> <p>FAR: http://farsite.hill.af.mil/vffar1.htm http://www.acqnet.gov/far/</p> <p>DFARS: http://farsite.hill.af.mil/VDFAR1.HTM http://www.acq.osd.mil/dpap/dars/dfars/index.htm</p>
204	<p>Quality – Special Process Certs:</p> <p>Seller and any sub-tier contractor engaged in special processes (i.e./ x-ray, welding, NDT, heat treat, plating painting, cleaning, testing, etc.) shall submit a certificate of conformance for the process being performed with each shipment. Any additional data or objective quality evidence required by the process specification shall also be included.</p> <p>For High Strength Fasteners Rc >32, plating related certs will include the following at a minimum:</p> <p>Plating time (duration) Plating temperature Time plating operation was started Time plating operation was completed Time plated parts enter baking oven Baking temperature</p>
205	<p>Quality - Chemical Test Reports:</p> <p>A copy of the manufacturer’s chemical test report for each lot is required with shipment of material stating the full breakdown of chemical composition. These reports shall include the following information:</p> <ul style="list-style-type: none"> • Signature and title of authorized quality personnel • Applicable specification and revision • Quality statement
206	<p>Quality - Material Test Reports:</p> <p>A copy of the manufacturer’s material test report for each lot is required with shipment of material stating to which specification the material was made. These reports shall include the following information:</p> <ul style="list-style-type: none"> • Signature and title of authorized quality personnel • Applicable specification and revision • Quality statement

	<ul style="list-style-type: none"> • Examples for BS EN10204: <ul style="list-style-type: none"> • Type 2.1 Statement of compliance validated by the Manufacturer • Type 2.2 Statement of compliance with <u>non-specific</u> inspection (test report) results validated by the Manufacturer • Type 3.1 Statement of compliance with <u>specific</u> inspection (certificate 3.1) results validated by the Manufacturer's authorized inspection representative independent of the manufacturing dept. Heat number on part and inspection certificate must match.
207	<p>Quality - Physical Test Reports:</p> <p>A copy of the manufacturer's physical test report for each lot is required with shipment of material stating physical tests for threaded (hardness, tensile, shear, etc.) and non-threaded product (hardness, etc.). These reports shall include the following information:</p> <ul style="list-style-type: none"> • Signature and title of authorized quality personnel • Applicable specification and revision • Quality statement
208	<p>Quality – First Article Inspection (FAI):</p> <p>A first article in accordance with AS9102 including an entry for each blueprint/specification requirement shall be included with initial shipment of product and resubmitted under the following circumstances</p> <ul style="list-style-type: none"> • A change in Design affecting fit, form, or function of the part; Drawing has changed • There has been a change in manufacturing source(s), process(es), inspection method(s) location of manufacture, or testing process or processor, tooling, and/or equipment • A different manufacturer is utilized for any part or component of an assembled part • A change in numerical control program or translation to another media that could potentially affect fit, form, or function • A natural or man-made event, which may adversely affect the manufacturing process • A lapse in production for two years or as specified by Customer <p>The following information is required on all FAI package:</p> <ul style="list-style-type: none"> • Supplier name • Part Number • Applicable Revision • Date • Inspector Name or Stamp • Applicable Blueprint Zones • All Blueprint characteristics and notes with corresponding results
209	<p>Quality – Airworthiness Certificate:</p> <p>An Airworthiness 8130-3 or JAA1 form shall be included with shipment, signed by an authorized representative</p>

210	<p>Quality – Limited Life Material:</p> <ul style="list-style-type: none"> • Shelf life, cure date, date of manufacture, and expiration date is required for all limited life materials, and shall be recorded on the Certificate of Conformance. Limited life materials shall have a minimum of 80% shelf life remaining unless otherwise approved in writing by BUYER. • Rubber test reports shall be included with shipment when applicable. Test Reports shall show actual durometer values as observed in testing
211	<p>Quality – Certificate of Origin:</p> <p>The following requirements shall be reflected on the Certificate of Origin, which shall be included with shipment.</p> <ul style="list-style-type: none"> • Exporter details - The name, address and business number of the Exporter (and the Producer or Manufacture if different from the Exporter.) • First Shipment details: <ul style="list-style-type: none"> • Consignee name and address <ul style="list-style-type: none"> • Sufficient details to identify the consignment, such as invoice number and date and Air Way Bill, Sea Way Bill or Bill of Lading. • Export Permit/Declaration • Port of Discharge • Full Description of the Goods: <ul style="list-style-type: none"> • Detailed description of the goods, including the relevant code under the Harmonized Commodity Description and Coding System, and if applicable, product number and brand name. • Exporter Declaration: • Declaration completed by a competent representative of the Exporter that the details provided above are true and correct, signed and dated by that representative and annotated with the representative's name and designation. <ul style="list-style-type: none"> • Certification By Authorized Body - Certification completed by a competent representative of the authorized body that, based on evidence provided by the producer or manufacturer, the goods specified in the Certificate of Origin originated in the exporting Party and comply with the rules of origin, and specified in the Certificate of Origin. The Certificate of Origin shall be signed and dated by the competent representative and annotated with the representative's name and designation. • Certificate Number - A unique number assigned to the Certificate of Origin by the authorized body.
212	<p>Quality – Production Part Approval Process (PPAP):</p> <p>The following requirements shall be reflected on the PPAP, which shall be included with shipment.</p> <ul style="list-style-type: none"> • Design Records of Saleable Product • Engineering Change Documents • Customer Engineering approval, if required • Design FMEA • Process Flow Diagrams • Process FMEA • Dimensional Results • Material, Performance Test Results • Initial Process Study • Measurements System Analysis Studies • Qualified Laboratory Documentation • Control Plan • Part Submission Warrant (PSW)

	<ul style="list-style-type: none"> • Appearance Approval Report, (AAR) if applicable • Bulk Material Requirements Checklist (for bulk material PPAP only) • Sample Product • Master Sample • Checking Aids • Records of Compliance with Customer-Specific Requirements.
220	<p>Documentation – Distributor C of C:</p> <p>The following requirements shall be reflected on the Distributor CofC, which shall be included with shipment.</p> <p>All C of C documentation shall be legible/reproducible and include:</p> <ul style="list-style-type: none"> • Seller's name and address • Purchased Part Number • Manufacturer's part number (If different from the Purchased Part Number) • Purchase Order Number • Date • Quantity • Statement of conformity • Name of authorized authority (Electronic Signature) • Lot Number • Serial numbers (When applicable) • Manufacturer's name • Country of Origin
221	<p>Documentation – Manufacturer C of C:</p> <p>The following requirements shall be reflected on the Manufacturer CofC, which shall be included with shipment.</p> <p>All C of C documentation shall be legible/reproducible and include:</p> <ul style="list-style-type: none"> • Seller's name and address • Purchased Part Number • Manufacturer's part number (If different from the Purchased Part Number) • Purchase Order Number • Date • Quantity • Statement of conformity • Name of authorized authority (Electronic Signature) • Lot and serial numbers (When applicable) • Manufacturer's name • Country of Origin – In the case of kits where individual kit components were made in different countries, the country of manufacture shall be shown for each separate part number. <p>Note: Traceability shall be established and documentation included for each change in custody back to the original manufacturer.</p>
222	<p>Packaging -Custom Packaging per SAE ARP5316</p> <p>Custom Packaging per SAE ARP5316, current revision -Storage of Elastomer Seals and Seal Assemblies, which include Elastomer Elements prior to Hardware Assembly All product must be packaged, handled, and/or processed per SAE ARP5316</p>
223	<p>Traceability of Government Contract Number</p> <p>MFG C of C requirement waived by customer in lieu of maintaining trace ability to the contract number or document number under which the government purchased the product.</p>

224	<p>Quality - High Criticality (e.g. Type A, Class A, High Risk) Qualification Documentation:</p> <p>The following requirements shall be included with the shipment.</p> <ul style="list-style-type: none"> • Sample size as indicated on PO • Characteristic Accountability & Verification (CAV) or First Article Inspection (FAI); Details to include Supplier name, part number, drawing revision, date, inspector name or stamp, applicable blueprint zones and characteristics, with corresponding results and CTQ data. • Control Plan, (MPP/PQP) • Special Process Certs: Seller and any sub-tier contractor engaged in special processes (i.e./ x-ray, welding, NDT, heat treat, plating painting, cleaning, testing, etc.) shall submit a certificate of conformance for the process being performed with each shipment. Any additional data or objective quality evidence required by the process specification shall also be included. • Chemical Test Reports: A copy of the manufacturer's chemical test report for each lot is required with shipment of material stating the full breakdown of chemical composition. These reports shall include the following information: Signature and title of authorized quality personnel, applicable specification and revision, quality statement. • Material Test Reports: A copy of the manufacturer's material test report for each lot is required with shipment of material stating to which specification the material was made. These reports shall include the following information: Signature and title of authorized quality personnel, applicable specification and revision, quality statement • Physical Test Reports: A copy of the manufacturer's physical test report for each lot is required with shipment of material stating physical tests for threaded (hardness, tensile, shear, etc.) and non-threaded product (hardness, etc.). These reports shall include the following information: Signature and title of authorized quality personnel, applicable specification and revision, quality statement
225	<p>Quality - Medium Criticality (e.g. Type B, Class B, Medium Risk) Qualification Documentation:</p> <p>The following requirements shall be included with the shipment.</p> <ul style="list-style-type: none"> • Sample size as indicated on PO • Characteristic Accountability & Verification (CAV) OR First Article Inspection (FAI); Details to include Supplier name, part number, drawing revision, date, inspector name or stamp, applicable blueprint zones and characteristics, with corresponding results and CTQ data. • Control Plan, (MPP/PQP) • Special Process Certs: Seller and any sub-tier contractor engaged in special processes (i.e./ x-ray, welding, NDT, heat treat, plating painting, cleaning, testing, etc.) shall submit a certificate of conformance for the process being performed with each shipment. Any additional data or objective quality evidence required by the process specification shall also be included. • Chemical Test Reports: A copy of the manufacturer's chemical test report for each lot is required with shipment of material stating the full breakdown of chemical composition. These reports shall include the following information: Signature and title of authorized quality personnel, applicable specification and revision, quality statement. • Material Test Reports: A copy of the manufacturer's material test report for each lot is required with shipment of material stating to which specification the material was made. These reports shall include the following information: Signature and title of authorized quality personnel, Applicable specification and revision, Quality statement • Physical Test Reports: A copy of the manufacturer's physical test report for each lot is required with shipment of material stating physical tests for threaded (hardness, tensile, shear, etc.) and non-threaded product (hardness, etc.). These reports shall include the following information: Signature and title of authorized quality personnel, applicable specification and revision, quality statement

226	<p>Quality - Low Criticality (e.g. Type C, Class C, Low Risk) Qualification Documentation:</p> <p>The following requirements shall be included with the shipment.</p> <ul style="list-style-type: none"> • For a Distributor: C of C • For a Manufacturer: Characteristic Accountability & Verification (CAV) OR First Article Inspection (FAI); Details to include Supplier name, part number, drawing revision, date, inspector name or stamp, applicable blueprint zones and characteristics, with corresponding results.
227	<p>Quality - Pressure Equipment Directive (PED):</p> <p>The component/assembly must meet the requirements of the European Community Pressure Equipment Directive (97/23/EC). The Pressure Equipment Directive (PED) requirements will vary depending on the Category Classification. PED Classification is determined based on the component/assembly rated design condition. It is the responsibility of the manufacturer to comply with the requirements of the PED, which may include, but not limited to, maintaining technical files, proper marking (when applicable), and approval from notified body (when applicable).</p> <p>Examples for BS EN10204:</p> <ul style="list-style-type: none"> • Type 2.1 Statement of compliance validated by the Manufacturer • Type 2.2 Statement of compliance with <u>non-specific</u> inspection (test report) results validated by the Manufacturer • Type 3.1 Statement of compliance with <u>specific</u> inspection (certificate 3.1) results validated by the Manufacturer's authorized inspection representative independent of the manufacturing dept. Heat number on part and inspection certificate must match.
228	<p>DPAS (Defense Priorities and Allocation Systems) DOA1:</p> <p>The Purchase Order must meet the requirements of DPAS rated DOA1. (San Antonio will control the sale of all KAC items to comply with DPAS DOA1)</p> <ul style="list-style-type: none"> • Under Title I of the DPA, the President is authorized to require preferential acceptance and performance of contracts or orders (other than contracts of employment) supporting <u>certain approved national defense and energy programs</u>, and to allocate materials, services, and facilities in such a manner as to promote these approved programs. • The DPA's definition of "national defense" includes programs for military and energy production or construction, military assistance to any foreign nation, stockpiling, space, and any directly related activity. The definition has also been amended to include emergency preparedness activities conducted pursuant to Title VI of The Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5195, <u>et seq.</u>) and critical infrastructure protection and restoration.

244	<p>Quality - California Proposition 65:</p> <p>Due to legislation by the state of California, any material supplied against a Gexpro Services PO is required to be complaint to California Proposition 65, which requires businesses to notify Californians about significant amounts of chemicals in the products they purchase, in their homes or workplaces, or that are released into the environment. By providing this information, Proposition 65 enables Californians to make informed decisions about protecting themselves from exposure to these chemicals. Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water. Gexpro Services suppliers are required to prohibit a listed chemical in the manufacture of parts, or provide a "clear and reasonable" warning on the packaging before knowingly and intentionally exposing anyone to a listed chemical.</p> <p>Further information is available at the following link: http://oehha.ca.gov/prop65.html</p>
245	<p>Quality-GDLS High Strength Screw Certification Requirements:</p> <p>Grade 5 and Grade 8 English series and Metric series Classes 8.8, 10.9, and 12.9 hex head and socket head fasteners shall have documentation confirming the chemical and mechanical properties meet the requirements for heat treated alloy steel as specified in the applicable procurement specification.</p> <p>Fasteners shall either be manufactured by or purchased from manufacturers on the Approved Manufacturer List. Approved manufacturers must supply fasteners of their own manufacture and are not allowed to procure or supply fasteners from any other manufacturer for subsequent sale Please contact the buyer for an Approved Manufacturer List, if necessary.</p>

	Fastener suppliers shall furnish a certification with each shipment that documents the actual Material chemistry, core hardness, or tensile strength (per applicable specifications SAE J429, ASTM A354, SAE J1199, ASTM F568M, ASTM A574, ASTM A574M, FF-S-85, or FF-S-86), and finish requirements as specified on the applicable drawing or Purchase Order
246	Quality- GE OG Dresser – Bellows Kits EG512 (Engineering Guide) All products must meet the GE applicable PQCR and MDSC requirements detailed in EG512.
247	Quality – Flextronics Product Change Notification In addition to Buyer's Standard Terms & Conditions of Purchase referenced on this purchase order, additional Terms & Conditions of Purchase shall also apply. Upon acceptance of this PO, supplier is also liable for the following requirements: (1) No departure shall be made from Buyer's Specifications, nor any change made in materials, sources of supply, or design, manufacturing or assembly processes, or location. Supplier must notify buyer of any changes 90 days prior to implementation and document on Gexpro Services SDR form. PCNs for product discontinuance shall be submitted 180 days prior to last order dates and 365 days prior to last shipment release dates. (2) Supplier shall flow down the Product Change Notification requirement to sub-tier suppliers.
248	Quality - Chemical and Material Blacklist The purchase order shall meet the requirements of Vestas' Chemical and Material Blacklist, which can be obtained from the link below: https://www.vestas.com/~media/vestas/about/sustainability/pdfs/0005-4934%20material%20blacklist%20version%207.pdf The supplier shall avoid the use of substances, which cannot be legally applied at Vestas Wind Systems A/S, or avoid the use of undesirable substances that are constituents of the supplier's products. The supplier is responsible for examining the product to ensure it does not contain one or more of the chemical compounds on the Chemical and Material Blacklist. The supplier is required to flow down this requirement to sub-tiers at all levels.
249	Quality – Gulfstream Standard Requirements In addition to Buyer's Standard Terms & Conditions of Purchase referenced on this purchase order, Buyer's Additional Terms & Conditions of Purchase (excluding payment terms) located at https://www.gulfstream.com/efs/downloads/conditions-of-purchase.pdf shall also apply to this purchase order and are hereby incorporated by reference. Upon acceptance of this PO, supplier is liable for any SN, NCR, QCR, NCN, or any other defect notification associated with this order.
250	Quality- GE OG Dresser – GK Kits EG513 (Engineering Guide) All products must meet the GE applicable PQCR and MDSC requirements detailed in EG513 and product preservation requirements in PC 475 section 6.0
251	Packaging – Internal Engine Components Any externally threaded Fastener 3/4" or M20 and larger or 1/2" NPT" to contain Thread Protection.
252	Quality- Internal Engine Components All Parts to be free of "Burrs/Dirt/Debris".

253	<p>Quality – General Dynamics Electric Boat</p> <p>The purchase order shall meet the requirements of General Dynamics Electric Boat Specification EB 2678, as amended, which can be obtained from the link below: http://www.gdeb.com/suppliers/10_quality/</p> <p>Notwithstanding other requirements of the EB 2678 spec, the supplier shall specifically comply with the business ethics and standards of conduct as defined in appendix B regarding contract compliance and awareness of malpractice prevention. The supplier is required to post Notices as defined, conduct awareness and refresher training, integrate into internal and supplier audit processes, and to flow down this requirement to sub-tiers at all levels.</p>
254	<p>Quality – Raytheon Standard Requirements</p> <p>In addition to Buyer’s Standard Terms & Conditions of Purchase referenced on this purchase order, Buyer’s Additional Terms & Conditions of Purchase (excluding payment terms) located within TC-001, TC-002, TC-003, TC-HARDCODE, and TC-UPDATE, as found at www.raytheon.com/suppliers/supplier_resources/ shall also apply to this purchase order and are hereby incorporated by reference. Upon acceptance of this PO, supplier is liable for any SN, NCR, QCR, NCN, or any other defect notification associated with this order.</p>
255	<p>Quality- Electronic Items</p> <p>For Manufacturers, a Manufacturer C of C is required with each shipment. For Distributors, a valid Authorized Franchised Distributor (AFD) Declaration or objective evidence of AFD status as found on the Manufacturer’s website is required with each shipment. In addition, supplier shall have in place a Counterfeit Electronic Part Detection and Avoidance System in compliance with AS5553 and/or AS6081. Should the Seller become aware of a Counterfeit Part or Suspect Counterfeit Part that, by any means, has been delivered to Gexpro Services, or acquired for this Order whether or not delivered to Gexpro Services, the Seller shall notify Gexpro Services as soon as possible but not later than seven (7) days of discovery. The Seller will verify receipt of this notification by Gexpro Services.</p> <p>The following directives are hereby incorporated by reference:</p> <ul style="list-style-type: none"> • DFARS 252.246-7007 - Contractor Counterfeit Electronic Part Detection and Avoidance System • DFARS 252.246-7008 - Sources of Electronic Parts
256	<p>Quality – Gulfstream Standard Requirements</p> <p>(HC 463): The supplier must establish and maintain a Quality Assurance System acceptable to Gulfstream Procurement Quality. The system must be in accordance with the requirements of Gulfstream Supplier Quality Assurance Requirements –0003 Revision “No Change” (SQAR-0003 N/C) which by reference is incorporated herein and made a part of this Purchase Order or Contract. (For application to P.O.’s or contracts for manufacturers of flight critical (priority) detail parts or assemblies including those foreign suppliers with or without a Bilateral Agreement. This includes suppliers performing special processes such as chemical conversion coatings, plating, heat treat, welding, etc. and suppliers which provide acceptance analysis, testing, non-destructive testing, calibration, etc. for any of these products listed).</p>
257	<p>Quality – Gulfstream Standard Requirements</p> <p>(HC 464): The supplier must establish and maintain a Quality Assurance System acceptable to Gulfstream Procurement Quality. The system must be in accordance with the requirements of Gulfstream Supplier Quality Assurance Requirements –0004 Revision “No Change” (SQAR-0004 N/C) which by reference is incorporated herein and made a part of this Purchase Order or Contract. (for application to P.O.’s, Contracts for Pass Through Distributors or Inventory Control</p>

	managers supplying products where the specification conformance of the product as imparted by the original manufacturer has not been affected.
258	<p>Quality – Gulfstream Standard Requirements</p> <p>(HC 792): Stencil to indicate alloy and temper. Material may be tagged where stenciling is impractical.</p>
259	<p>Quality – Gulfstream Standard Requirements</p> <p>(HC 950): Flammability code requirements:</p> <ul style="list-style-type: none"> • FOR ANY STANDARD & STAND ALONE MATERIALS SUCH AS: Nomex/fiberglass sandwich panels, balsa core panels, hose, tubing, spare wire conduit, air ducting, green nylon cloth, vinyl, chafe wrap, plastic mirror material, foam padding (IG-3/DAX), black plastic laminate, rubber bulb seal, lexan, kydex, ABS, muslin, and nylon boards. The material must meet the requirements of title 14 code of federal regulations, federal aviation regulations 25.853. Compliance statement must accompany and be referenced on the certification of compliance with each shipment. Records of compliance must be maintained by the supplier and available for review by Gulfstream Procurement Quality. • DRESS COVERING/ORGANIC MATERIALS SUCH AS: Leather, fabric, cork and wood Materials having flame retardant applied must have a statement on the certificate of conformance referencing the type of flame retardant and application method. Materials without flame treatment must have “No Fire Retardant Applied” stated on certificate of conformance. • THERMAL / ACOUSTIC INSULATING MATERIALS SUCH AS: Fiberglass batting, film covering for batting, nomex blankets, carpet padding, plumbing insulation, self-adhesive foam, rubber sound dampening materials, nomex felt. The material must meet the requirements of title 14 code of federal regulations, federal aviation regulations 25.856. Compliance statement must accompany and be referenced on the certificate of compliance with each shipment. Records of compliance must be maintained by the supplier and available for review by Gulfstream Procurement Quality. • WIRING INSULATION: The material must meet the requirements of title 14 code of federal regulations, federal aviation regulations 25.1713. Records of compliance must be maintained by the supplier and available for review by Gulfstream Procurement Quality. • ELECTRONIC COMPONENTS SUCH AS: GA 270 05/2017 6 Electronic components supplied for use in aircraft. This includes black boxes, monitors, coffee makers, etc. But excludes commercial off the shelf (COTS) equipment. The material must meet the requirements of title 14 code of federal regulations, federal aviation regulations 25.869. Records of compliance must be maintained by the supplier and available for review by Gulfstream Procurement Quality. In regard to electrical material that will be consumed singularly or as part of an assembly into aircraft, per Engineering requirements; this material may then be received into Gulfstream in bulk form e.g. wire, nylon cable ties, shrink sleeve, solder sleeves, splices etc. This material was previously shown to comply with and meet the requirements of the Certifying Authorities at the time of engineering release as stated within the 8100-9. It is not necessary nor is it required to have those requirements revalidated at the time of receipt as part of a Certificate of Conformity or any other paper work that might be delivered with the part.

261	<p>Quality – Applied Materials (AMAT) Standard Requirements</p> <p>In addition to Buyer’s Standard Terms & Conditions of Purchase referenced on this purchase order, additional Terms & Conditions of Purchase shall also apply. Upon acceptance of this PO, supplier is liable for any defect notification associated with this order. Upon acceptance of this PO, supplier is also liable for the following requirements: (1) No departure shall be made from Buyer’s Specifications, nor any change made in materials, sources of supply, or design, manufacturing or assembly processes, or location. Supplier must notify buyer of any changes three hundred and sixty-five (365) days prior to implementation and document on Gexpro’s SDR form. (2) Supplier must notify buyer of any obsolescence notifications a minimum of three hundred and sixty-five (365) days prior to implementation. (3) Supplier shall flow down the Copy Exactly (CE!) and Critical Part requirements to sub-tier suppliers. Minimum Product EHS Requirements, as defined in 0250-75116 are hereby incorporated by reference.</p>
262	<p>Quality – Woodward Airframe Standard Requirements</p> <p>The product(s) ordered on this purchase order are destined for Woodward Airframe or one of their affiliates, therefore the following flow down requirements apply:</p> <ul style="list-style-type: none"> • Quality System Requirements per WPQR-9100 (Rev 34) • Quality System Requirements Document - 2-OF-01420 (Rev 17) Note: AS9102 forms are required with every PPAP. • Supplier Characteristic Accountability – WI 8.4.3-201 (rev 2) <p>For a copy of the Woodward specifications, please contact the buyer.</p>
263	<p>Quality – Safeguarding Cyber Information - (CDI/CUI)</p> <p>This order is issued under a United States Government Department of Defense (DOD) prime contract or subcontract, and the regulations of the identified clauses set forth in the Federal Acquisition Regulations (FAR) or Defense Federal Acquisition Regulation Supplement (DFARS) in effect on the date of this order are incorporated herein by reference. All contractors that provide goods and/or services in connection with U.S. DOD programs are required by law to comply with FAR 52.204-21 which outlines the Basic Safeguarding of Covered Contractor Information, DFARS 252.204-7012, which mandates the protection of all Covered Defense Information (CDI) that are "collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance" of a DOD contract that contains such clause. This obligation is required to be flowed down to all subcontractors (including commercial items suppliers) at every tier. In addition to protecting CDI, the DFARS clause also specifically mandates that companies meet the 110 information technology (IT) security standards detailed in the National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171r1, and imposes various prompt reporting obligations in the event of a cyber incident. Any instance of noncompliance with NIST SP 800-171r1 (security requirements 3.12.2 and 3.12.4) must be addressed through a plan of action and a system security plan.</p> <p>Acknowledgment of purchase orders/subcontracts issued as the result of a United States Government prime contract or subcontract shall be in accordance with the provisions of the Defense Priorities and Allocations Systems Regulation (15 CFR Part 700) governing rated orders. Failure to provide acknowledgment within the allotted time frame and in manner prescribed therein shall constitute acceptance of the order/subcontract and all terms and conditions set forth therein.</p> <p>Further information is available at the following links:</p> <p>FAR: http://farsite.hill.af.mil/vffar1.htm http://www.acqnet.gov/far/</p> <p>DFARS:</p>

264	<p>Quality – Hubbell Power Systems (Aiken, SC)</p> <p>In addition to Buyer’s Standard Terms & Conditions of Purchase referenced on this purchase order, Buyer’s Additional Terms & Conditions of Purchase (excluding payment terms) located at https://gexproservices.com/supplier-information-center-0 shall also apply to this purchase order and are hereby incorporated by reference.</p>
265	<p>Quality – Karcher North America Standard Requirement</p> <p>The product(s) ordered on this purchase order are destined for Karcher North America, therefore the following flow down requirements apply:</p> <ul style="list-style-type: none"> • Environmentally Compatible Products – Constituent Substances (KN 050.032) <ul style="list-style-type: none"> ○ With the EU RoHS Directive (2011/65 EU, restriction of the use of certain hazardous substances in electrical and electronic equipment) and various other European and non-European directives, regulations and laws, the use of specific components in the Goods is limited or prohibited. The application of the current legal situation is summarized in Karcher standard KN 050.032, which can be downloaded from the following address: https://supplierinfo.kaercher.com/ ○ The supplier is required to comply with KN 050.032 – Constituent Substances and with all other statutory requirements which apply to the Goods. In any event, this applies to all statutory requirements in the EU, China and NAFTA, and for all other countries to the extent agreed by the Parties. The supplier will take all necessary measure to ensure that they are complied with, e.g. by obligating of subcontractors, audits of subcontractors and / or conducting periodic quality spot checks. ○ If the statutory requirements are more stringent than the requirements of the Kärcher standard, the statutory requirements of the destination country and the countries of the EU, China and NAFTA will always apply. If it is unclear to the Supplier which guidelines, standards and laws are applicable, the Supplier is required to obtain clarification.
266	<p>Quality - Eaton</p> <p>Suppliers shall be at a minimum certified by a 3rd party registrar to an internationally recognized quality management system, as specified by each Eaton business group:</p> <ul style="list-style-type: none"> • Aerospace – AS/EN/JISQ9100 • Electrical – ISO9001 • Hydraulics – ISO9001 • Vehicle – IATF16949 and be compliant to core tools from the AIAG manuals for APQP, SPC, MSA, PPAP, FMEA latest revision.
267	<p>Quality – BAE Systems Lands & Armaments L.P. Packaging Instructions for Hardware Kits</p> <p>All hardware and small components kits shall be packaged, marked, and packed as outlined in Section 044 Packaging Instructions for Hardware Kits of the current version of the Contract Deliverable Requirements Manual (CDR) unless other requirements are provided through the Purchasing Agreement. The BAE Systems Purchasing Order and/or Engineering Drawing provide the part numbers and quantities required for each kit. The current version of the CDR is located at the following BAE Systems’ Link: https://pns-purchasing.us.baesystems.com/york/Quality/index.shtml#csqam In addition, Packaging of this kit is to be accomplished through good commercial practices and is intended to</p>

	<p>provide adequate protection of the kit(s) and the kit components during transit and handling as well as for short-term storage.</p>

269	<p>Quality Infractions- Tesla</p> <p>All parts supplied to Tesla must be in full compliance with print requirements and specifications, unless an approved deviation is on file. It is Tesla's policy to charge suppliers for all costs</p>

	<p>resulting from nonconforming material, and infractions that disrupt our production or planning processes. The amount to be debited pursuant to this policy will be summarized in the Chargeback system of the Supplier Portal.</p> <p>Suppliers will have 14 days during which to dispute a claim. If the supplier does not dispute the Chargeback, the claim will be debited automatically in the next pay cycle and defective parts will be scrapped.</p> <p>Charges may include the part purchase price, in-bound & outbound freight, additional lost material if part of a subassembly, and the actual cost of the additional activities required as a direct result of the nonconformance, which include but are not limited to the following:</p> <ul style="list-style-type: none"> • Sorting • Rework • Material handling • Inspection • Supplies • Tooling • Fixtures • Line shutdown • Premium freight • Storage fees (demurrage charges) • Re-pack and associated handling <p>The charges will also compensate Tesla for the cost of returning nonconforming material following disposition. Quality infractions will include a charge for labor associated with the chargeback, which is in addition to the charge for the part purchase price and other charges. This labor charge may be updated at Tesla's discretion.</p>
270	<p>Quality- Cook Inc.</p> <p>In addition to Buyer's Standard Terms & Conditions of Purchase referenced on this purchase order, additional Terms & Conditions of Purchase shall also apply.</p> <ul style="list-style-type: none"> • Supplier must provide ninety (90) days notice of any product notify buyer of any obsolesce notifications in writing to the buyer. • With reasonable notice and with SUPPLIER's written consent, with such not being unreasonably withheld, Gexpro Services and the final customer will have the right to audit SUPPLIER's manufacturing facility or Applicable Facilities where the Products are manufactured and SUPPLIER's documentation and records related to the manufacturing and design of the Parts exclusively to confirm whether and to the extent the part and its manufacture conforms to FDA, MDD, and CMDR regulations, applicable standards such as ISO 13485, ISO 9001, and other applicable regulatory requirements. SUPPLIER will make available documentation relating thereto.
271	<p>Quality – Alstom Transportation</p> <p>In addition to Buyer's Standard Terms & Conditions of Purchase referenced on this purchase order, additional Terms & Conditions of Purchase shall also apply:</p> <p>Requirements as defined in the "Generic Quality Specification for Externalized C Class Components", available upon request.</p> <p>The purchase order shall meet the requirements of the Ethics and Sustainable Development Charter for Alstom's Suppliers and Contractors, as amended, which can be obtained from the link below: https://www.alstom.com/commitments/sustainable-sourcing</p>

<p>Notwithstanding other requirements of the Ethics and Sustainable Development Charter for Alstom's Suppliers and Contractors, the supplier shall prove that their products comply with the regulations related to the use of hazardous substances (RISL Railways Industry Substances List at the link below, and to flow down this requirement to sub-tiers at all levels: https://unife.org/banners/79-railway-industry-substance-list.html</p>
