

STANDARD TERMS OF PURCHASE

1. ACCEPTANCE OF TERMS. Supplier shall comply with all terms set forth herein and on the purchase order to which these terms are attached or are expressly incorporated by reference (including any specifications, samples, drawings and other documents referred to herein, transmitted via Buyer's electronic data exchange or on the purchase order), (collectively, this "**Order**"). This Order is an offer to purchase the goods and/or services (including any deliverables, which include but are not limited to any products, articles, apparatus, compound, composition, Embedded Software, and required Documentation) described herein (collectively, the "**Products**"). This Order shall not constitute an acceptance of any offer to sell, quotation or other proposal from Supplier, even if referred to in this Order. Unless otherwise stated on the face of this Order or in a separate written agreement between the parties, the terms herein shall prevail over conflicting terms. **ACCEPTANCE OF THIS ORDER IS EXPRESSLY LIMITED TO THE TERMS OF THIS ORDER. BUYER OBJECTS TO ANY TERMS AND CONDITIONS INCLUDED WITH SUPPLIER'S QUOTATION, ACKNOWLEDGMENT, WARRANTY STATEMENT, INVOICE OR OTHER DOCUMENT WHICH ARE ADDITIONAL TO OR DIFFERENT THAN THE TERMS OF THIS ORDER, AND SUCH ADDITIONAL OR DIFFERENT TERMS SHALL NOT BE PART OF THIS ORDER BETWEEN SUPPLIER AND BUYER. NO PRIOR PROPOSALS, QUOTATIONS, STATEMENTS, FORECASTS, COURSE OF DEALING OR USAGE OR TRADE WILL BE PART OF THIS ORDER.** This Order shall be irrevocably accepted by Supplier upon the earlier of Supplier's: (a) issuing any acceptance or acknowledgement of this Order; (b) delivering any Products ordered; or (c) commencement of the work called for by this Order, in any manner. If these terms are part of a supply agreement between the parties, the term "Order" used herein shall mean any purchase order issued under the supply agreement.

2. PRICES, PAYMENTS AND QUANTITIES.

2.1 Prices. All prices are firm and shall not be subject to change. Supplier's price includes all: (a) packaging, labeling (including date of manufacture and bar code labeling), insurance, storage, handling, interest and service charges, crating or cartage and any other expenses; (b) shipment charges if Supplier does not utilize Buyer's designated carrier; and (c) taxes, fees and/or duties applicable to the Products purchased under this Order; provided, however, that any value added tax that is recoverable by Buyer, and any state and local sales, use, excise and/or privilege taxes, if applicable, shall not be included in Supplier's price but shall be separately identified on Supplier's invoice. If Supplier is legally obligated to pay value added and/or similar tax, Supplier shall invoice Buyer in accordance with applicable rules to enable Buyer to reclaim such tax. If Buyer is legally required to withhold taxes for which Supplier is responsible, Buyer shall deduct such taxes from payment to Supplier and provide Supplier a valid tax receipt in Supplier's name. If Supplier is exempt from or eligible for a reduced rate of withholding tax, Supplier shall provide to Buyer a valid tax residency certificate or other required documentation at least thirty (30) days prior to payment being due. Notwithstanding anything to the contrary, Supplier is responsible for all taxes based upon its real and personal property, gross receipts, business and occupation, and environmental tax fees, as well as those taxes based on Supplier's gross and/or net income.

2.2 Payment Terms.

(a) **Standard Terms.** Unless otherwise stated on the face of this Order or restricted by applicable Law, the ordinary net date ("**Net Date**") shall be 120 days after receiving from Supplier both the accepted Products and a correct corresponding invoice that complies with the terms of this Order. All sums to be paid by Buyer under this Order will be in United States dollars. Unless Buyer initiates payment on an early payment discount date as described in subsection (c) below, Buyer shall initiate payment on the Monthly Batch Payment Date or the Quarterly Batch Payment Date as described in subsection (b) below or on the Net Date.

(b) **Batched Payments.** Unless restricted by applicable Law, Buyer may choose to group all invoices that have not been discounted and that have Net Dates ranging from the sixteenth day of one month to the fifteenth day of the next month, and initiate payment for all such invoices on the third day of the second month or if that day is not a business day, then on the next business day (each such payment date being referred to as the "**Monthly Batch Payment Date**"), with the result that some invoices shall be paid earlier than their Net Dates and some invoices shall be paid later than their Net Dates. Alternatively, Buyer may choose to group and pay on a quarterly basis all invoices that have not been discounted as follows: (i) invoices with Net Dates ranging from the sixteenth day of February to the fifteenth day of May shall be grouped and Buyer shall initiate payment on the third day of April or if that day is not a business day, then on the next business day; (ii) invoices with Net Dates ranging from the sixteenth day of May to the fifteenth day of August shall be grouped and Buyer shall initiate payment on the third day of July or if that day is not a business day, then on the next business day; (iii) invoices with Net Dates ranging from the sixteenth day of August to the fifteenth day of November shall be grouped and Buyer shall initiate payment on the third day of October or if that day is not a business day, then on the next business day; and (iv) invoices with Net Dates ranging from the sixteenth day of November to the fifteenth day of February shall be grouped and Buyer shall initiate payment on the third day of January or if that day is not a business day, then on the next business day (each such payment date being referred to as the "**Quarterly Batch Payment Date**"), with the result that some invoices shall be paid earlier than their Net Dates and some invoices shall be paid later than their Net Dates.

(c) **Early Payment Discounts.** Unless restricted by applicable Law, Buyer shall be entitled, either directly or through GEC (defined below) to take an early payment discount ("**Flat Discount**") for initiating payment on a date certain prior to the Net Date ("**Flat Discount Date**"). The Flat Discount shall be calculated by applying a daily discount rate of 0.0333% of the gross invoice price ("**Daily Discount Rate**") for each day between the Flat Discount Date and the Net Date. If the Net Date falls on a weekend or holiday, the Net Date shall be moved to the next business day. If the Flat Discount Date falls on a weekend or a holiday, Buyer shall initiate payment to Supplier on the next business day and take the Flat Discount. Each early payment discount shall be rounded to the nearest one hundredth of a percent. The Daily Discount Rate is based in part on the 3 Month Libor Rate (defined below) in effect on the last business day of the month preceding the day when the first early payment discount is taken to settle an invoice ("**Base Libor Rate**"). If the 3 Month Libor Rate in effect on the last business day of any month ("**Current Libor Rate**") differs from the Base Libor Rate, the Daily Discount Rate may be adjusted on the last business day of such month by 0.00003% for each basis point difference between the Current Libor Rate and the Base Libor Rate on the adjustment date. If the Daily Discount Rate is adjusted, the adjusted Daily Discount Rate shall be applied to all invoices posted for payment after the adjustment date. The "**3 Month Libor Rate**" shall be the 3 month Libor rate published in the "Money Rates" section of The Wall Street Journal as the "London interbank offered rate, or Libor three month" (or, if not so published, as published in another nationally recognized publication) on the last business day of each month. If Buyer takes an early payment

discount through GEC to settle an invoice, Supplier confirms that: (i) Buyer has assigned its right, title and interest in the related Products to GE Capital US Holding, Inc. or another Affiliate (defined in subsection (e) below) or a successor entity (“GEC”) and title to such Products shall pass directly to GEC in accordance with the terms of this Order; (ii) once title to such Products has passed to GEC, GEC shall immediately and directly transfer such title to Buyer; and (iii) all of Supplier's obligations under this Order, including Supplier's representations and warranties, shall extend to and benefit Buyer as if title passed directly to Buyer.

(d) Invoicing. If requested by Buyer, settlement and invoicing shall be paperless and in a format acceptable to Buyer. Supplier’s invoice must: (i) bear Buyer’s Order number, the item number of such release, Buyer’s part number(s) and revision number(s), invoice quantity, unit of measure, unit price, total invoice amount, and Supplier’s name, phone number and address to which remittance should be sent, as well as such other information required by Law or Buyer; and (ii) be issued only after delivery in accordance with this Order has occurred, but not later than 120 days after Buyer’s receipt of the Products and/or Supplier’s completion of the services. Buyer shall be entitled to reject Supplier’s invoice if it fails to include Buyer’s Order number, is issued after the time set forth above or is otherwise inaccurate. Such rejection shall not entitle Supplier to suspend performance, and any resulting delay in payment or nonpayment shall be Supplier’s responsibility. Supplier warrants that it is authorized to receive payment in the currency stated in this Order. No extra charges of any kind shall be allowed. Buyer may withhold total or partial payment until the Products conform to the requirements of this Order. Buyer’s payment of an invoice shall not constitute its acceptance of the Products.

(e) Set Off. Buyer shall be entitled at any time to set-off any and all amounts owed by Supplier to Buyer or an Affiliate (defined herein) on this or any other order. “Affiliate” for purposes of this Order shall mean, with respect to Buyer, any entity, including, any individual, corporation, company, partnership, limited liability company or group, that directly, or indirectly through one or more intermediaries, controls, is controlled by or is under common control with the Buyer.

2.3 Quantities.

(a) General. Buyer is not obligated to purchase any quantity of Products except for such quantity(ies) as may be specified by Buyer either on the Order or on a separate written release issued by Buyer pursuant to the Order. Supplier shall not make material commitments or production arrangements in excess of Buyer’s specified quantities and/or in advance of the time necessary to meet Buyer’s delivery schedule. Should Supplier do so, any resulting exposure shall be for Supplier’s account. Products delivered to Buyer in excess of Buyer’s specified quantities and/or in advance of schedule may be returned to Supplier at Supplier’s risk, and Supplier shall be responsible for all related costs and expenses incurred by Buyer.

(b) Last Time Buy. If Supplier or its sub-tier suppliers or subcontractors (“Subcontractor(s)”) plan to cease supply or production of any Products purchased hereunder and/or necessary for the production/provision of Products hereunder within 2 years from the date of this Order, or of any Parts after the 10-year period as detailed in Section 2.3(c) below, (“Discontinued Products”), then Supplier shall provide Buyer with 12 months advance written notice of such event and utilize Buyer’s Supplier Change Request process so that Buyer may issue an Order(s) for a “last-time” buy from Supplier for such Discontinued Products. The foregoing shall not operate to waive any rights or remedies available to Buyer in contract, at law or in equity.

(c) Aftermarket Supply. Replacement parts, field replacement units, spares, and modules for Products purchased by Buyer are for the purpose of this Section defined as “Parts” and are considered “Products” under this Order. Supplier will maintain for ten (10) years from the last shipment of a Product purchased by Buyer under this Order the capability to: (i) repair, and supply Parts for, the Products; (ii) make such repair services and Parts available to Buyer and its customers; and (iii) furnish all Documentation, Parts, service tools, and instruments necessary to effectively service and repair the Products. Supplier shall continue to supply such Parts past the ten-year period if Buyer orders at least twenty (20) Parts per year following such ten-year period. The price for any Part purchased in the first two (2) years of the ten-year period shall not exceed those prices in effect at the time production of the Product(s) ceases, and no set-up charges shall be permitted by Supplier or paid by Buyer during this two-year period. Thereafter, the price for the Parts shall be negotiated based on Supplier’s actual cost of production of such Parts plus any special packaging costs. No minimum order requirements for Parts shall apply. After the end of the ten-year period, Supplier shall continue to maintain in good working condition all Supplier-owned tooling required to produce the Parts and shall not dispose of such tooling without offering Buyer the right of first refusal to purchase such tooling.

3. DELIVERY AND TITLE PASSAGE.

3.1 Delivery.

(a) Time is of the essence of this Order. Supplier agrees to notify Buyer immediately in writing if Supplier has any reason to believe that any quantities of Products will not be delivered or completed as ordered, and/or any shipment will not be made as scheduled. If any shipment of Products is not made in time for delivery on the date and in the quantities set forth in this Order or Supplier fails to deliver all the Products and related Documentation and/or complete the services as scheduled, Buyer may: (i) require delivery by fastest method at Supplier’s cost; (ii) return to Supplier some or all of the Products in said shipment at Supplier’s risk and expense (including all freight, warehousing, handling, shipping, and transportation costs); (iii) purchase substitute goods and services from a third party and charge Supplier with the increased difference in cost thereof (if any); (iv) direct Supplier to make an expedited shipment of additional or replacement Products, with the cost of the expedited shipment to be paid by Supplier; and/or (v) recover all damages it incurs as a result of Supplier’s failure to perform as scheduled. The foregoing is in addition to any other rights or remedies available to Buyer at law or in equity.

(b) Product on-time delivery (“OTD”) rate shall not be less than 98% per Supplier’s site on a rolling three calendar month basis. The term “Supplier’s site” as used in this Section 3.1(b) means the Supplier site that ships the Products to Buyer. Buyer will use the following calculation in determining the OTD rate at the end of each calendar month: the total number of “complete” Product shipments (as represented by a line item in the Order) by Supplier site that are received by Buyer no more than 5 days early and 2 days late to the Need By date required by Buyer during that calendar month will be divided by the total number of all Product shipments that Buyer received from the same Supplier site during the same calendar month. Supplier may monitor its OTD rate through the web-based portal through which Buyer will send forecasts and Orders to Supplier (the “GESP”). The term “complete” as used above means that the total quantity of all Products on a line item in the Order, as ordered by Buyer, must be received by Buyer no more than 5 days early and 2 days late to Buyer’s required Need By date (partial or incomplete Product shipments will not

be deemed “complete” as specified above). Any Product deliveries that were not made on-time but would have been made on-time if Product lead time was given, will not be included in the calculation.

(c) If the OTD rate for any Supplier site has fallen below 98%, Buyer will charge Supplier a fixed amount of \$350 USD for each line item on an Order that was not delivered complete and on-time during the reported period (“**Delivery Administration Fee**”) and the imposition of such Delivery Administration Fee will continue on a monthly basis for each line item not delivered complete and on-time during that month until the Product OTD (from the same Supplier site) of 98% is met or exceeded. The Delivery Administration Fee shall be charged to Supplier automatically as a debit memo issued to Supplier’s account. For the avoidance of doubt, the Delivery Administration Fee is only intended to compensate Buyer for certain administrative expenses and shall be without prejudice to Buyer’s right to recover other costs or expenses to which Buyer is entitled under this Order, including expedited transportation and its other actual damages.

(d) Within thirty (30) days of receiving notice from Buyer, Supplier shall also develop and implement a written corrective and preventative action plan (and submit a copy to Buyer) that addresses Product OTD improvement. Should Supplier fail to correct OTD issues after a six-month period, Buyer may, at its discretion, terminate all unfulfilled Orders with respect to affected Product(s) without incurring any liability notwithstanding anything to the contrary herein. The provisions of this Section 3.1 are in addition to any other rights or remedies available to Buyer at law or in equity.

3.2 Transportation. Supplier will comply with the provisions of the GE Healthcare Americas Transportation Routing Guidelines, located at <https://www2.gehealthcare.com/GEHCPurchaseTC.html> (“**GEHC Americas Transportation Routing Guidelines**”), which Supplier acknowledges it has read. Any exceptions by Supplier must be approved in advance and in writing by Buyer on a per shipment basis. Unless otherwise specified by Buyer in writing, Supplier agrees: (i) to use Buyer’s designated carrier (as identified in the GEHC Americas Transportation Routing Guidelines) in the shipment of all Products, and (ii) such designated carrier will bill its transportation charges directly to Buyer. Buyer will not pay any other transportation charges, unless authorized by Buyer in advance and in writing. If Supplier ships Products by a method or carrier without Buyer’s prior written authorization or fails to comply with any such Buyer specification and other requirements, Supplier will pay all costs pertaining thereto, including all freight, warehousing, handling, shipping, and transportation costs. Supplier will release rail or truck shipments at the lowest valuation permitted and will not declare value on Products shipped.

3.3 Title Passage. Title to the Products shall pass from Supplier to Buyer at the same point that risk of loss transfers from Supplier to Buyer per the applicable Incoterm. Notwithstanding the foregoing, if Buyer’s designated carrier is not utilized, title and risk of loss will pass to Buyer when the Products are delivered to Buyer’s receiving docks. Products delivered to Buyer in advance of schedule may be returned to Supplier at Supplier’s expense. Buyer may specify contract of carriage and named place of delivery in all cases. Each shipment made by Supplier will include a packing list containing the PO number, Buyer product identification and part number, quantity shipped, date of shipment, country of origin, product weight, and such other information required by applicable Law and/or Buyer.

3.4 Force Majeure.

(a) Except as otherwise provided in Section 3.4(b) of this Order, any delay or failure of a party hereto to perform its obligations hereunder will be excused if and to the extent that it was caused by an event or occurrence beyond such party’s reasonable control and without its fault or negligence (“Force Majeure”). Force Majeure includes, but is not limited to, acts of God, actions by any government authority (whether valid or invalid), fires, floods, windstorms, explosions, riots, natural disasters, wars, sabotage, acts of terrorism, or court injunction or order. A party claiming Force Majeure must provide the other party with written notice of such delay (including the anticipated duration of the delay) within ten (10) days of the occurrence of Force Majeure. During the period of such delay or failure to perform by Supplier, Buyer may acquire substitute or replacement items from one or more alternative sources, and in such event, there may be a proportionate reduction of the quantity of Products required from Supplier and Buyer will not be liable in any way for such reductions. If the delay lasts more than thirty (30) days, or if Supplier does not provide adequate assurances that the delay will cease within thirty (30) days, Buyer may terminate this Order upon written notice and any funds pre-paid by Buyer will be refunded by Supplier within ten (10) business days of said termination.

(b) Notwithstanding anything in this Order to the contrary, no delay or failure of Supplier to perform its obligations hereunder will be excused if and to the extent that it is caused by: (i) labor problems of Supplier and/or its Subcontractors, such as, by way of example and not by way of limitation, lockouts, strikes, and slowdowns, or (ii) the inability of Supplier and/or its Subcontractors to obtain power, materials, labor, equipment, or transportation. Items (i) and (ii) above in this Section 3.4(b) of this Order do not constitute Force Majeure for purposes of this Order.

4. PACKAGING & DOCUMENTATION.

4.1 Supplier is responsible, at its own expense, for: (i) the safe and suitable packaging and labeling of the Products; (ii) complying with the Global Packaging Guidelines, located at <https://www2.gehealthcare.com/GEHCPurchaseTC.html> (the “**Global Packaging Guidelines**”), which Supplier acknowledges it has read, and (iii) complying with all applicable Laws relating to the packaging, labeling, and carriage of the Products in the countries of manufacture, shipment, transit, and/or destination. Unless Buyer otherwise agrees in writing, Buyer will not accept partial shipments of Products ordered. Supplier shall utilize returnable and reusable product containers where justified.

4.2 Supplier shall minimize the size and weight of packaging for the Products to minimize total cost and environmental impact without compromising essential functions and requirements of the packaging. If either of the following size & weight criteria cannot be met, Supplier shall provide Buyer with written documentation of the applicable part number, part description and reasons for failure to meet criteria, so the parties can review packaging for potential improvement: (i) the gross weight of the packaging for the Products should be greater than the dimensional weight (“**DIM**”). DIM equals: (a) for packages measured in centimeters, the packaging length multiplied by both its height and width, divided by 7590 for weight in kilograms; or (b) for packages measured in inches, the packaging length multiplied by both its height and width, divided by 210 for weight in pounds; and (ii) the weight of the packaging materials should be less than 25% of the weight of the Products.

4.3 Where applicable, Supplier will promptly deliver to Buyer at no additional charge a complete set of reproducible master copies of all Documentation. The Documentation, including all master copies thereof, will be provided in a format and language acceptable to Buyer. If any change in a Product requires a change in the Documentation, Supplier will promptly notify Buyer of the change, and provide at no charge to Buyer a

reproducible master copy of the revised Documentation without charge. All such revised master copies will comply with the formatting and language requirements specified above. Buyer may modify the Documentation formatting and language requirements upon written notice to Supplier. “**Documentation**” means all Product-related information, including user manuals, drawings, schematics, design history files, labels, functional descriptions, Products descriptions, instructions, operator aids, promotion material, videos, and spare part lists, as well as all documentation pertaining to theories of operation, service troubleshooting diagnostics, testing protocols, and instructions necessary for the use, installation, manufacture, operation, maintenance, and repair of the Products. The term “Documentation” also includes all revised versions of any of the foregoing that are created or provided by Supplier.

5. CHANGES.

5.1 Buyer Changes. Buyer may at any time make changes within the scope of this Order in any one or more of the following: (a) drawings, designs or specifications; (b) method of shipment or packing; (c) place and time of delivery; (d) amount of Buyer’s furnished property; (e) quality; (f) quantity; or (g) scope or schedule of Products. Supplier shall not proceed to implement any change until such change is provided in writing by Buyer. If any changes cause an increase or decrease in the cost or schedule of any work under this Order, an equitable adjustment shall be made in writing to the price and/or delivery schedule as applicable. Any Supplier claim for such adjustment shall be deemed waived unless asserted within 10 days from Supplier’s receipt of the change or suspension notification and may only include reasonable, direct costs that shall necessarily be incurred as a direct result of the change.

5.2 Supplier Changes. Changes proposed by Supplier, including material, process, or software changes, which may affect form, fit, function, reliability, serviceability, performance, approved part quality plans, functional interchangeability, regulatory compliance, safety, options or spare parts interchangeability or interface capability of a Product must be submitted along with a written change notice, for Buyer’s prior written approval. This may include changes in sources of material and components, product discontinuation, changes in manufacturing processes, test procedures, manufacturing locations, relocation or replacement of equipment and any similar changes that are anticipated by Subcontractors. No such change shall occur until Buyer has approved the change in writing, and Products affected by any such changes shall not be delivered to Buyer until Supplier has received written approval for the changes from Buyer. Supplier shall be responsible for obtaining, completing and submitting proper documentation regarding any and all changes, including complying with any written change procedures issued by Buyer.

5.3 Transfer of Manufacturing Facility. Supplier shall manufacture the Products only at the Supplier manufacturing facility that has been approved and qualified by Buyer in writing. In the event Supplier desires to transfer the manufacturing facility for the Products, Supplier shall provide not less than twelve (12) months advance written notice to Buyer, and Buyer will thereafter undertake the process of qualifying the Supplier’s proposed manufacturing site. Supplier will bear sole responsibility for funding all reasonable, documented and out of pocket costs associated with the transfer of Products to a different manufacturing facility. These costs shall include: (i) Buyer’s travel and time to qualify the proposed manufacturing site, (ii) Buyer manufacturing verification and validation (including non-recurring engineering costs (NRE) tied to qualification of materials); and (iii) all Buyer’s Property transfer costs associated with such transfer.

5.4 Suspension. Buyer may at any time, by notice to Supplier, suspend performance of all or any part of the work under this Order for such time as it deems appropriate. Upon receiving notice of suspension, Supplier shall promptly suspend work to the extent specified, properly caring for and protecting all work in progress and materials, supplies and equipment Supplier has on hand for performance. Upon Buyer’s request, Supplier shall promptly deliver to Buyer copies of outstanding purchase orders and subcontracts for materials, equipment and/or services for the work and take such action relative to such purchase orders and subcontracts as Buyer may direct. Buyer may at any time withdraw the suspension as to all or part of the suspended work by written notice specifying the effective date and scope of withdrawal. Supplier shall resume diligent performance on the specified effective date of withdrawal. All claims for increase or decrease in the cost of or the time required for the performance of any work caused by suspension shall be pursued pursuant to, and consistent with, Section 5.1 above.

6. INSPECTION/TESTING AND QUALITY.

6.1 Inspection/Testing. In order to assess Supplier’s work quality and/or compliance with this Order, upon reasonable notice by Buyer all: (a) goods, materials and services related to the Products purchased hereunder, including, raw materials, components, assemblies, work in process, tools and end products shall be subject to inspection and test by Buyer, its customer, representative or regulatory authorities at all places, including sites where the Products are made or located or the services are performed, whether at Supplier’s premises or elsewhere; and (b) of Supplier’s facilities, books and records relating to this Order shall be subject to inspection and audit by Buyer or its designee. In addition, if Buyer, as the manufacturer of CE-marked medical devices designates Supplier as a critical supplier, the Supplier shall be subject to inspection without prior notice by third party auditors as required by regulatory authorities. If any inspection, test, audit or similar oversight activity is made on Supplier’s or its Subcontractors’ premises, Supplier shall, without additional charge: (i) provide all reasonable access and assistance for the safety and convenience of the inspectors and (ii) take all necessary precautions and implement appropriate safety procedures for the safety of the inspectors while they are present on such premises, including, where requested by an inspector for safety-related concerns, stopping all activities immediately. If, in the opinion of an inspector, the safety, health or security of the inspectors on such premises may be imperiled by local conditions, Buyer or its designee, its Affiliates and/or its or their relevant customers may remove some or all of their personnel from the premises, and Buyer shall have no responsibility for any resulting impact on Supplier or its Subcontractors. Supplier agrees to cooperate with such audit and inspection, including completing and returning questionnaires and making available its knowledgeable representatives. Buyer’s inspection or failure to inspect or reject or detect defects by inspection shall not relieve Supplier from its responsibilities under this Order nor impose liabilities on Buyer.

6.2 Quality. When requested by Buyer, Supplier shall promptly submit real-time production and process data (“**Quality Data**”) in the form and manner requested by Buyer. Supplier shall provide and maintain an inspection, testing and process control system (“**Supplier’s Quality System**”) covering the Products provided hereunder that is acceptable to Buyer and its customer and complies with ISO or a comparable standard, applicable regulatory requirements, Buyer’s quality policy, quality requirements in this Order and/or other quality requirements that are otherwise agreed to in writing by the parties, including, if applicable, the Supplier Quality Requirements document separately executed by the parties and incorporated herein by reference (collectively, “**Quality Requirements**”). Acceptance of Supplier’s Quality System by Buyer does not alter Supplier’s

obligations and/or liability under this Order, including Supplier's obligations regarding its Subcontractors. If Supplier's Quality System fails to comply with the terms of this Order, Buyer may require additional quality assurance measures at Supplier's expense necessary to meet Buyer's Quality Requirements. Such measures may include Buyer requiring Supplier to install Buyer approved third party quality auditor(s)/inspector(s) at Supplier's facility(ies) to address the deficiencies in Supplier's Quality System or other measures or requirements that may be specified in Buyer's Quality Requirements or otherwise agreed upon by the parties in writing. Supplier shall keep complete records relating to Supplier's Quality System, including all testing and inspection data and shall make such records available to Buyer and its customer for the longer of: (a) the life of the Products plus 7 years; (b) such period as set forth in the specifications applicable to this Order; (c) such period set forth in the Quality Requirements; or (d) such period as required by applicable Law. If Supplier is not the manufacturer of the Products, Supplier shall certify the traceability of the Products to the original equipment manufacturer on the Certificate of Conformance/Acceptance Data Record. If Supplier cannot certify traceability of the Products, Supplier shall not ship such Products to Buyer without obtaining Buyer's written consent. Any review or approval of drawings by Buyer shall be for Supplier's convenience and shall not relieve Supplier of its responsibility to meet all requirements of this Order.

6.3 Product Recall. If GE determines that a recall, field modification, correction or removal ("**Field Action**") involving a Product purchased under this Order or a Buyer product incorporating a Product purchased under this Order was caused by a defect, non-conformance or non-compliance which is the responsibility of Supplier, Supplier shall indemnify and hold harmless Buyer from all Buyer's reasonable costs and expenses incurred in connection with any Field Action, including all costs related to: (i) investigating and/or inspecting the affected Products; (ii) notifying Buyer's customers; (iii) repairing, or where repair of the Products is impracticable or impossible, repurchasing or replacing the recalled Products; (iv) packing and shipping the recalled Products; (v) reinstalling repaired Products and/or installing repurchased or replaced Products; and (vi) media notification. Each party shall consult the other before making any statements to the public or a governmental agency relating to such Field Action or potential safety hazards, except where such consultation would prevent timely notification required by Law.

6.4 Product Concerns. Supplier will ensure that all information held by or reasonably available to it regarding any potential hazards known or believed to exist in the transport, handling, or use of any Products and/or performance of any services ("**Product Concerns**") will be received by Buyer in writing prior to delivery of the Products and/or performance of the services. In the event Supplier becomes aware of any Product Concerns any time after the delivery of Products or commencement of services, Supplier will immediately: (i) notify Buyer in writing; and (ii) provide such additional information and Documentation as Buyer may require.

6.5 Product Quality Problem.

(a) If Buyer determines that two percent (2%) or more of the total quantity of a Product (by part number) shipped by Supplier during a rolling three calendar month period did not meet the Quality Requirements ("**Product Quality Problem**"), Buyer will charge Supplier a fixed amount of \$350 USD for each Product (by part number) not meeting the Quality Requirements during the reported period ("**Quality Administration Fee**"). The imposition of such Quality Administration Fee will continue on a monthly basis for each specific Product (by part number) not meeting the Quality Requirements until the Product Quality Problem is corrected. The Quality Administration Fee shall be charged to Supplier automatically as a debit memo issued to Supplier's account. To determine whether a Product Quality Problem exists, Buyer will perform the following calculation: the total number of Products received and coded by Buyer as "Supplier at Fault" during the reported rolling three calendar month period at issue will be divided by the total number of Products shipped during the same period. The "Supplier at Fault" quantity used in the above calculation shall be adjusted to the extent verified that the Product Quality Problem was solely caused by Buyer. Supplier may monitor its quality scorecard through the GESP. For the avoidance of doubt, the Quality Administration Fee is only intended to compensate Buyer for certain administrative expenses and shall be without prejudice to Buyer's right to recover other costs or expenses to which Buyer is entitled under this Order, including all costs associated with the repair or replacement of Nonconforming Products (as defined below) and its other actual damages.

(b) Within thirty (30) days of receiving notice from Buyer, Supplier shall also develop and implement a written corrective and preventative action plan (and submit a copy to Buyer) that addresses the Product Quality Problem. Should Supplier fail to correct the Product Quality Problem after a six-month period, Buyer may, at its discretion, terminate all unfulfilled Orders with respect to the affected Product(s) without incurring any liability notwithstanding anything to the contrary herein. The provisions of this Section 6.5 are in addition to any other rights or remedies available to Buyer at law or in equity.

7. ACCEPTANCE/REJECTION.

7.1 If any of the Products furnished pursuant to this Order are found within thirty (30) days after delivery (the "**Inspection Period**") to be defective or otherwise not in conformity with the requirements of this Order, including any applicable Quality Requirements and specifications, whether such defect or non-conformity relates to scope provided by Supplier or a direct or indirect Subcontractor, then Buyer, in addition to any other rights, remedies and choices it may have by Law, contract and/or at equity, at its option and sole discretion, may: (a) require Supplier, at its expense, to immediately re-perform any defective portion of the services and/or require Supplier to immediately repair or replace non-conforming Products with Products that conform to all requirements of this Order; (b) take such actions as may be required to cure all defects and/or bring the Products into conformity with all requirements of this Order, in which event all related costs and expenses (including material, labor and handling costs and any required re-performance of value added machining or other service) and other reasonable charges shall be for Supplier's account; (c) reject and/or return at Supplier's risk and expense all or any portion of such Products; (d) withhold total or partial payment; and/or (e) rescind this Order without liability. Buyer may also reject any entire Order based upon a reasonable sampling of Products as determined solely by Buyer. For any repairs or replacements, Supplier, at its cost and expense, shall perform any tests requested by Buyer to verify conformance to this Order. Partial or total payment by Buyer for Products under this Order prior to, or after the conclusion of, the Inspection Period will not: (i) constitute its acceptance thereof; (ii) affect Supplier's responsibilities, warranties, or representations under this Order, including those pertaining to any nonconforming Products; or (iii) operate to waive any rights or remedies available to Buyer at Law or in equity.

7.2 Supplier shall be liable for any and all costs and expenses incurred by Buyer as a result of any non-conforming Products, whether or not Buyer rejects such Products. Buyer will itemize such costs and expenses to Supplier, which may include cost of defective materials, a handling charge equal to fifteen percent (15%) of the price of the non-conforming Products, transportation charges, incidental material and labor costs, sorting and

rework expenses, lost production starts directly caused by the non-conforming Products (including late delivery), and any other actual costs creating a loss to Buyer.

7.3 Buyer may return to Supplier any un-used, non-defective Products for a period of up to one (1) year after Buyer's receipt of such Products. For any payment Buyer made with respect to such Products, Supplier will provide Buyer (at Buyer's election) with either: (i) a credit that will be applied to offset amounts owed under any open or future Supplier invoices to Buyer, or (ii) refund such payment to Buyer by wire transfer or check within ten (10) business days of receiving Buyer's notification.

8. WARRANTIES.

8.1 Supplier warrants that all Products provided pursuant to this Order, whether provided by Supplier or any Subcontractor: (a) are free of all claims, liens, security interests, or encumbrances (other than liens arising through Buyer); (b) are of new and merchantable quality, not used, rebuilt or made of refurbished material; (c) are free from all defects in title, workmanship and material, whether latent or otherwise; (d) are free from all defects in design and, if Supplier knows (or has reason to know) of a particular purpose for which Buyer or its customers intend to use the Products, are fit for the particular purpose for which they are intended; (e) are manufactured and provided in strict accordance with all specifications, samples, drawings, designs, descriptions, instructions, plans, end-user documentation, other Documentation and other requirements approved or adopted by Buyer; (f) are manufactured, processed and assembled by Supplier or its approved Subcontractors under Supplier's direction; (g) are safe for their intended use, non-toxic, and present no abnormal hazards to persons or their environment; (h) comply with all Quality Requirements; (i) have received all applicable regulatory certifications, including 510(k) clearances and CE mark, as required; and (j) (as well as the use and/or distribution of the Products) do not infringe or misappropriate any patent, copyright, trade secret, trademark, or other intellectual property right of any third party without such parties' prior written consent.

8.2 Supplier Covenants that all services provided pursuant to this Order, whether provided by Supplier or any Subcontractor shall: (a) be performed in a timely, professional, and workman-like manner; (b) conform strictly to all of Buyer's requirements, specifications, drawings, plans, instructions, end-user documentation, other Documentation, samples, and other descriptions; and (c) not infringe or otherwise violate or misappropriate any patent, copyright, trade secret, trademark, or other intellectual property right of any third party.

8.3 The warranties set forth in Sections 8.1(c) and 8.1(e) above shall extend to future performance of the Products and apply for a period of twenty-four (24) months from Buyer's acceptance in accordance with Section 7 above and may be longer for warranties pertaining to third party components that extend beyond twenty-four (24) months. All other warranties of Supplier set forth in this Order will survive in perpetuity. The warranties set forth herein: (a) survive the inspection, acceptance, and use of the Products by Buyer, its distributors, sub-distributors, channel partners, sub-licensees, and customers; (b) are for the benefit of Buyer and its successors, assigns, distributors, sub-distributors, channel partners, and customers; and (c) are in addition to any warranties, rights, and/or remedies to which Buyer may otherwise agree to in writing or which are provided by Law.

8.4 Buyer may return or have returned to Supplier any Products, or require the re-performance of any services, that do not conform to the representations and warranties set forth in this Order ("**Nonconforming Product(s)**") by using Supplier's return process, provided Supplier requests such return process in writing to Buyer within the warranty period. Nonconforming Products returned to Supplier's facility shall have all transportation, insurance, and handling charges (including return shipment to Buyer or its customer) prepaid by Supplier. At Buyer's request, Supplier will provide its shipping account number for shipping/receiving all Nonconforming Products and repaired or replacement Products to/from Supplier or, at Buyer's discretion, Buyer may ship the Nonconforming Products using its carrier and assess a handling fee of 7% of the purchase price of each Nonconforming Product. Risk of loss for Nonconforming Products will pass to Supplier when the Nonconforming Product is delivered to the carrier. Supplier will at its cost: (i) at Buyer's sole discretion, either replace or repair, at Buyer's sole discretion, the Nonconforming Product to bring it in conformity with all representations and warranties (including all Quality Requirements and specifications), and (ii) deliver the replacement or repaired Product to the address and entity specified by Buyer in writing within five (5) days after Supplier's receipt of the Nonconforming Product; provided, however, that Supplier will replace the Nonconforming Product, in lieu of repair, if Buyer provides notice of the non-conformity within seven (7) days of Product installation. If it will take longer than such five-day period to deliver the repaired or replacement Product, Supplier will promptly notify Buyer of such circumstance in writing prior to the lapse of said five-day period. If Supplier is unable to repair and return the Product within thirty (30) days, Supplier will (at Buyer's written direction) provide Buyer a complete refund in accordance with Section 8.5 below. Any repaired or replaced Product, or part thereof, or re-performed services shall carry warranties on the same terms as set forth above. For any repairs or replacements, Supplier, at its cost and expense, shall perform any tests requested by Buyer to verify conformance to this Order.

8.5 In addition to the remedies noted in Section 8.4 above, Supplier will also promptly reimburse Buyer for all costs and expenses associated with replacements of Nonconforming Products, including those costs associated with all Field Engineer (FE) labor and material costs (labor + travel). Supplier will pay such Buyer invoices for any refund, costs and expenses by wire transfer or check within thirty (30) days of Supplier receiving such invoice. Buyer may instead elect, at its sole discretion and at any time, to use the amount(s) that would otherwise be due hereunder as a credit or set-off that Buyer may use on any amount(s) owed to Supplier under this Order or otherwise. Supplier shall provide Buyer such support as Buyer may require in order to determine root causes related to any Product issues found in the field and/or provide MTBF (Mean Time Between Failures) data for Product-related repairs as requested by Buyer periodically.

8.6 Data Wiping Requirements. Supplier shall prevent the unauthorized disclosure of data that may reside in any Nonconforming Product returned to Supplier by conducting a secure wipe of the Nonconforming Product's electronic or magnetic media (including, but not limited to, hard drives, flash-based storage devices such as ATA solid state drives, SCSI SSDs, USB removable media, memory cards, and embedded flash on boards and devices) prior to reissue or reuse of the Nonconforming Product by Buyer or any third party. The secure wipe required hereunder shall be accomplished by completing a single pass overwrite of a "00" or "11" hex, consistent with the National Institute of Standards and Technology Guidelines for Media Sanitation. Subsequent to completion of this secure wipe, Supplier shall confirm and document that no usable data is recoverable using standard software methods.

8.7 Supplier agrees to extend to Buyer and its customers any additional warranties received from Supplier's Subcontractors. Supplier shall be liable to Buyer for all material, subcomponents and services purchased directly or indirectly from or performed by all of Supplier's Subcontractors. Supplier shall use commercially reasonable efforts to flow down these GE Healthcare Standard Terms of Purchase to its Subcontractors, or at a minimum, hereby warrant and represent that all its contracts with its Subcontractors contain provisions, including warranty and indemnity, which are in conformity with and no less stringent than the provisions of this Order. Supplier shall enforce such terms on its behalf and for the benefit of Buyer, and if Supplier fails to enforce its terms with such suppliers then Buyer is hereby deemed a third-party beneficiary of Supplier's contract(s) with such suppliers and is hereby assigned the rights to enforce such terms in lieu of Supplier at Supplier's expense. NOTWITHSTANDING THE FOREGOING, THE PARTIES EXPRESSLY AGREE THAT ALL RISKS ARISING FROM GAPS IN WARRANTY, INDEMNITY AND/OR REMEDIES WITH SUPPLIER'S SUBCONTRACTORS SHALL BE BORNE BY SUPPLIER AND SHALL NOT LIMIT SUPPLIER'S WARRANTY OBLIGATION OR LIABILITY TO BUYER HEREUNDER.

9. REPAIR & MAINTENANCE SERVICES.

9.1 With respect to all Products shipped to Supplier for repair, overhaul and/or maintenance services: (a) Supplier shall maintain a record of shipments and receipts to determine warranty coverage of the Products, and provide to GEHC at the beginning of each calendar quarter with a written report that specifies the Products that were repaired or replaced during the immediately preceding calendar quarter, and whether each such Product was in or out of warranty. (b) At Buyer's reasonable request, Supplier shall conduct a physical inventory of Nonconforming Products and Service Products on Supplier's site and provide Buyer a written report. Supplier shall reasonably assist Buyer in determining any discrepancies between Buyer's records and Supplier's records pertaining to such physical inventory. Supplier shall either provide Buyer a credit, check, or replacement product, based on the value of the Product if Supplier loses, damages, or is otherwise unable to account for Products returned by Buyer. (c) Supplier shall utilize Buyer's resources consisting of the Electronic Repair Tracker ("eRT") or Buyer's approved equivalent system on a daily basis to track the flow of Products between Buyer and Supplier. Supplier must modify Buyer's Order status in eRT from "In Route" to "At Supplier" within one (1) business day of Supplier receipt of such Product. Supplier must modify Buyer's Order status in eRT from "At Supplier" to "Returned to Buyer" within one (1) business day of Supplier's shipment of such Product back to Buyer. Supplier is responsible for using eRT to: (i) identify in warranty and out of warranty status of each returned Product; and (ii) request Buyer's written pre-approval for any of the following: price changes for product-related non-standard repair, scrap, misidentification, and/or misdirected shipments. (d) Supplier shall appoint a single point of contact for managing Buyer's information systems (e.g. eRT, iSupplier Portal) and notifying Buyer of all shipment promise dates, requesting authorization for change requests, or communicating problems associated with such shipments. Buyer shall provide Supplier a single point of contact and such training for, and access to, applicable Buyer resources as Buyer determines to be reasonable and necessary under the circumstances in Buyer's sole and absolute discretion. (e) Supplier shall ensure all Products are tracked effectively through the use of such Buyer's resources in order to minimize loss. Supplier shall promptly communicate any problems associated with the shipment or tracking of Products to the Buyer's repair team through Support Central Workflow forms, or any other process that Buyer reasonably requests of Supplier. Such issues shall include, but are not limited to: improperly shipped Products, repair Orders not in eRT, and Products received without paperwork.

9.2 In the event Buyer purchases repair, overhaul and/or maintenance services for Products that are out of warranty ("**Service Products**"), the following additional terms shall apply: (a) Service Products are considered "Products" and subject to the terms & conditions of this Order. (b) Buyer shall have sole authority to make the determination whether a Service Product should be repaired or scrapped by Supplier and returned to a Buyer specified facility. Supplier shall not scrap any Service Product without first obtaining Buyer's prior written authorization. (c) Title and risk of loss of the Service Product that Buyer authorizes to be scrapped shall pass to Supplier upon such removal and exchange. Supplier warrants that it will comply with Buyer's written instructions concerning the disposal and/or scrapping of Service Products. Supplier hereby agrees to release, defend, indemnify and hold Buyer harmless against any and all claims resulting from the unauthorized or improper use, distribution, disposal, or scrapping of defective Products. (d) Except as set forth in 9.2(c), title to Service Products remains at all times exclusively with Buyer or its customer, and Supplier warrants that it will take no action, or cause any action to be taken, that will result in any form of lien or encumbrance being placed on any Service Products. Supplier has no right, license or title to Service Products in whole or in part. (e) Supplier will communicate pricing for Service Products using a costed bill of materials, including, but not limited to, labor rate, material price, overhead, and margins. Supplier shall provide written notice to Buyer if any repair cost will exceed the agreed to contractual price of the Order, and Supplier will not commence any such repair unless and until Buyer has provided Supplier written authority through eRT.

10. TERMINATION.

10.1 Termination for Convenience. Buyer may terminate all or part of this Order for convenience at any time by written notice to Supplier. Notwithstanding anything to the contrary, Buyer's liability and Supplier's exclusive remedy for such termination by Buyer is limited to Buyer's payment for Products delivered and accepted in writing by Buyer prior to the effective date of said termination.

10.2 Termination for Default. Buyer, without liability, may by written notice of default, terminate all or part of this Order if Supplier fails to comply with any term of this Order or fails to make progress which, in Buyer's reasonable judgment, endangers performance of this Order. Such termination shall become effective if Supplier does not cure such failure within 10 days of receiving Buyer's written notice of default; except that Buyer's termination for Supplier's breach of Sections 14, 18 or 19 of this Order shall become effective immediately upon Supplier's receipt of Buyer's written notice of default. Upon termination, Buyer may procure at Supplier's expense and upon terms it deems appropriate Products similar to those so terminated, and Supplier shall be liable to Buyer for any excess costs for such Products and other related costs. Supplier shall continue performance of this Order to the extent not terminated by Buyer. If Supplier for any reason anticipates difficulty in complying with any requirements of this Order, Supplier shall promptly notify Buyer in writing. Without limiting any other rights herein, if Buyer agrees to accept deliveries after the delivery date has passed, Buyer may require delivery by the fastest method and the total cost of such shipment and handling shall be borne by Supplier. Buyer's rights and remedies in this clause are in addition to any other rights and remedies provided by Law, equity or under this Order.

10.3 Termination for Insolvency. If Supplier (a) dissolves or ceases to do business; (b) fails to pay its debts as they come due; or (c) or any other entity institutes insolvency, receivership, bankruptcy or any other proceeding for settlement of Supplier's debts, Buyer may immediately terminate

this Order without liability to the fullest extent permitted by applicable Law, except for Products completed, delivered and accepted within a reasonable period after termination (which shall be paid for at the Order price).

10.4 Supplier's Obligations on Termination. Upon Supplier's receipt of a notice of termination of this Order, Supplier shall promptly: (a) stop work as directed in the notice; (b) place no further subcontracts/orders related to the terminated portion of this Order; (c) terminate, or if requested by Buyer assign, all subcontracts/orders to the extent they relate to work terminated; and (d) deliver all completed work, work in process, designs, drawings, specifications, documentation and material required and/or produced in connection with such work.

11. BUYER'S PROPERTY. All tangible and intangible property, including information or data compilation of any description, tools, materials, plans, drawings, software, knowhow, documents, intellectual property, equipment or material: (a) furnished or licensed to Supplier by Buyer; (b) specifically paid for by Buyer; or (c) created with Buyer's IP Rights (defined in Section 12 below) shall be and remain Buyer's personal property (collectively, "**Buyer's Property**"). Such Buyer's Property furnished by Buyer to Supplier shall be accepted by Supplier in "AS IS" and "WHERE IS" condition with all faults and without any warranty whatsoever, express or implied, and shall be used by Supplier at its own risk and for the sole purpose of performing this Order for Buyer. Supplier shall not substitute any other property for Buyer's Property without first obtaining the express written consent of Buyer. Promptly upon receipt of a removal request from Buyer, Supplier shall prepare Buyer's Property (if tangible) for shipment and deliver it to Buyer at Supplier's expense in the same condition as originally received by Supplier, reasonable wear and tear excepted. Prior to using Buyer's Property (if tangible), Supplier shall inspect it and train its personnel and other authorized users in its safe and proper operation. In addition, Supplier shall: (i) keep Buyer's Property free of encumbrances and (if tangible) insured at its expense at an amount equal to the replacement cost thereof with loss payable to Buyer; (ii) plainly mark or otherwise adequately identify it (if tangible) as owned by Buyer; (iii) store it (if tangible) separate and apart from Supplier's and third party owned property under Supplier's control; (iv) maintain it (if tangible) properly, and in compliance with any handling and storage requirements provided by Buyer and/or the original manufacturer, or that accompanied it when delivered to Supplier; (v) supervise its use; and (vi) use it only to meet Buyer's Orders without disclosing or otherwise reproducing it for any other purpose. Supplier shall, at its sole cost and expense, be responsible for operating, maintaining and calibrating the Buyer's Property in accordance with the manufacturer's specifications and recommended guidelines. Buyer shall have the right to audit all pertinent books and records of Supplier, and to make reasonable inspections of Supplier's facilities to verify compliance with this Section 11 and Section 12 below. Buyer hereby grants to Supplier a non-exclusive, non-assignable license, without the right to sublicense, which is revocable with or without cause at any time, to use Buyer's Property, and any applicable intellectual property rights of Buyer, for the sole purpose of performing this Order for Buyer.

12. INTELLECTUAL PROPERTY.

12.1 General. Each respective party shall exclusively own all intellectual property it had prior to the commencement of this Order.

12.2 Supplier Intellectual Property. Supplier shall own intellectual property it owned prior to or developed independently of its obligations under this Order ("**Supplier Intellectual Property**"). Buyer shall have an unrestricted license to use, have used, modify, have modified, distribute, have distributed, sell, and have sold all Products purchased under this Order under the Supplier Intellectual Property. Supplier shall not assert any Supplier Intellectual Property against Buyer and its Affiliates, or any of their customers or suppliers, in any Products furnished under this Order, or the repair or refurbishment of any Products furnished under this Order.

12.3 Buyer Intellectual Property. Buyer shall own exclusively all rights in ideas, know-how, inventions, works of authorship, documentation, strategies, plans, data and databases created in or resulting from Supplier's performance under this Order, including all patent rights, copyrights, moral rights, rights in proprietary information, data rights, database rights, trademark rights and other intellectual property rights (collectively, "**Buyer's IP Rights**"). All Buyer's IP Rights for copyrightable subject matter shall be considered as though work(s) made for hire for Buyer (as the phrase "work(s) made for hire" is defined in the U.S. Copyright Act (17 U.S.C. § 101)) or, should applicable Law preclude such treatment, Supplier shall give Buyer "first owner" status related to the work(s) under local copyright law where the work(s) was created. If by operation of Law any such intellectual property is not owned in its entirety by Buyer automatically upon creation, then Supplier agrees to, and hereby does, transfer and assign to Buyer Supplier's entire right, title and interest throughout the world to such intellectual property. Supplier further agrees to enter into and execute any documents that may be required to transfer or assign ownership in and to any such Buyer's IP Rights to Buyer. Supplier is prohibited from selling to any third party the Products or a substantially similar product that is either (i) developed for Buyer under this Order, (ii) incorporates any Confidential Information of Buyer or Buyer's Property, or (iii) is specifically designed or configured for use with Buyer's products or applications using Confidential Information of Buyer's, Buyer's Property or information received or know how developed in connection with this Order. Should Supplier, without Buyer's prior written consent and authorization, design or manufacture for sale to any person or entity other than Buyer any goods substantially similar to, or which reasonably can substitute or repair, a Product purchased hereunder, or obtains governmental approval for such Product or repair, Buyer, in any adjudication or otherwise, may require Supplier to establish by clear and convincing evidence that neither Supplier nor its Subcontractors used in whole or in part, directly or indirectly, any of Buyer's Property, Buyer's Confidential Information or Buyer's IP Rights, as set forth herein, in such design or manufacture of such Products or in obtaining governmental approval with respect to such Products or repair.

12.4 Data Rights. Supplier agrees that Buyer, its customers, third party contractors and all other users may access, receive, collect, transmit, maintain, prepare derivative works from, and otherwise use information about Supplier's Products, including machine, technical, systems, usage and related information ("**Source Data**") to facilitate the provision of Products, and to verify compliance with the terms of this Order. Buyer, its customers, third party contractors and all other users also have the right to use the Source Data for research, development and continuous improvement of its products, software and services. Buyer will own all data, concepts, products, services, software, intellectual property and other rights arising from and/or related to Buyer's use, analysis, research and/or development of the Source Data.

12.5 Documentation. For any Documentation which is not covered by Buyer's IP Rights, Supplier shall secure for and grant to Buyer an irrevocable, perpetual, sub-licensable (through all tiers of sub-licensees) worldwide, nonexclusive, paid-up, royalty-free right and license to use, reproduce, modify, distribute, perform, display, and prepare derivative works of any such Documentation, including excerpts thereof.

12.6 Trademarks. Notwithstanding any other provision of this Order, Buyer trademarks, trade names, service marks, part numbers or other identifiers, including any Buyer packaging and copyright notices, constitute “**Buyer Marks**” for purposes of this Order. Supplier is only allowed to use Buyer Marks as specifically permitted and directed by Buyer in the Order and in accordance with Buyer guidelines, specifications, and policies, and Supplier agrees to comply fully with all guidelines adopted from time to time by Buyer.

12.7 Supplier’s Marks. Supplier grants to Buyer a non-exclusive, perpetual, irrevocable, worldwide, paid-up, royalty-free license to use Supplier’s trademarks, service marks, and trade names (collectively, “**Supplier Marks**”) on, or in connection with, any of Buyer’s marketing, sale, maintenance, repair, licensing, operation, and distribution of the Products. Use of Supplier Marks includes use: (a) in any advertising, (b) on Buyer’s websites, and (c) in any documentation or marketing materials for the Products or any Buyer product that incorporates the Supplier’s Product(s).

13. SOFTWARE.

13.1 Embedded Software. If any Products contain Embedded Software (defined below) that is not Buyer’s Property or Buyer’s IP Rights, Supplier shall, under all intellectual property rights, grant Buyer a non-exclusive worldwide, irrevocable, perpetual, royalty-free license, with the right to sublicense, to copy, modify, use, load, install, execute, demonstrate, market, test, resell, sublicense and distribute such Embedded Software and modifications thereto as an integral part of such Products or for servicing the Products (“**Buyer-Required License**”). If rights to Embedded Software or any part thereof are owned by a third party, prior to delivery, Supplier shall obtain the Buyer-Required License from such third party owner for Buyer. “**Embedded Software**” means any computer program or compilation of data that is fixed in any tangible medium of expression, or any storage medium from which the program may be perceived, reproduced or otherwise communicated, either directly or with the aid of a machine or device or network which are necessary for operation of the Products and/or embedded in or otherwise delivered or supplied as an integral part of the Products, and/or related Documentation.

13.2 Software Updates. For all Embedded Software, Supplier shall promptly deliver to Buyer, and at least simultaneously to the time it delivers or otherwise makes available to other customers or users of similar software products, all error corrections, bug fixes, as well as new versions, releases, updates, and upgrades pertaining thereto.

13.3 If Supplier provides Embedded Software under this Order which requires Buyer, a Buyer customer, or the user, or required the Supplier, to “Accept” various terms and conditions, including “click-wrap,” “click-through,” browse-wrap,” or “shrink-wrap,” such terms and conditions will be of no force and effect on Buyer or the user even though they are “accepted” by Buyer, a Buyer customer, or the user in order to access or use the Embedded Software. The relationship and obligations of the parties are solely governed by the terms of this Order. In addition, upon Buyer’s request, Supplier, at Supplier’s expense (including ongoing maintenance fees), will deposit in escrow all material relating to the Embedded Software (including a copy of the object code, source code, documentation and all annotations thereto) with an escrow agent designated by Buyer and under a written escrow agreement approved in writing by Buyer.

13.4 Restrictions on Open Source. Supplier warrants that: (a) the Products shall be free of any software code distributed under, or subject to, any open source license, including the GNU Public License, the GNU Lesser General Public License, or any other license, that requires in any instance that other software distributed with such software code be: (i) disclosed or distributed in source code form; (ii) licensed for purposes of making derivative works; and/or (iii) redistributed at no charge; (b) Buyer is not subject to any restrictions on assertions of patents or other intellectual property; and (c) the Products do not contain any software, key function, virus, worm, code, routine, device, or other harmful code (whether intended or not) that may disable, damage, impair, erase, deactivate, or electronically repossess such Products, data, or other equipment or software (including other goods).

13.5 Code Integrity Warranty. Supplier Covenants that the Products: (a) do not contain any restrictive devices such as any key, node lock, time-out, time bomb, or other function, whether implemented by electronic, mechanical, or other means, which may restrict or otherwise impair the operation or use of the Products or any material embodying or comprising the Products; and (b) shall be free of viruses, malware, and other harmful code (including time-out features) which may interfere with the use of the Products regardless of whether Supplier or its personnel purposefully placed such code in the Products. Supplier shall provide Buyer, free of charge, with any and all new versions, upgrades, updates, releases, maintenance releases, and error or bug fixes of the Products (collectively, “**Revised Code**”) which prevents a breach of any of the warranties provided under this Order or corrects a breach of such warranties. Revised Code contained in the Products constitutes goods for purposes of this Order.

13.6 Product Cybersecurity. Supplier agrees that all Products supplied under an Order that include executable binary code shall comply with the terms and conditions of the *Product Cybersecurity Appendix* located at <https://www2.gehealthcare.com/GEHCPurchaseTC.html>

14. CONFIDENTIALITY, DATA PROTECTION AND PUBLICITY.

14.1 Confidentiality. Supplier may receive or have access to certain information that is Confidential Information (as hereinafter defined) of Buyer or its Affiliates in performance of this Order.

(a) “**Confidential Information**” shall, whether furnished before or after the date of this Order and irrespective of the form of communication, mean: (i) the terms of this Order; (ii) all information and material disclosed or provided by Buyer to Supplier, including Buyer’s Property and GE Confidential Information as defined in the *GE Privacy and Data Protection Appendix* (“**PDPA**”) located at <https://www2.gehealthcare.com/GEHCPurchaseTC.html>; (iii) all information derived from Buyer’s Property; and (iv) all of Buyer’s IP Rights (defined in Section 12 above).

(b) Supplier shall: (i) use Confidential Information only for the purposes of fulfilling its obligations under this Order; and (ii) without limiting the requirements under Section 14.2 below, use the same degree of care as with its own confidential information, which shall be at least a reasonable standard of care, to prevent disclosure of the Confidential Information, except to its officers, directors, managers and employees (collectively, “**Authorized Parties**”), solely to the extent necessary to permit them to assist Supplier in performing its obligations under this Order. Prior to disclosing Confidential Information to any Authorized Party, Supplier shall advise the Authorized Party of the confidential nature of the Confidential Information and ensure that such party has signed a confidentiality agreement no less restrictive than the terms of this Section. Supplier acknowledges that irreparable harm shall result to the Buyer if Confidential Information is used or disclosed contrary to this Section.

(c) The restrictions in this Section 14 regarding the Confidential Information shall be inoperative as to particular portions of the Confidential Information disclosed by Buyer to Supplier if such information: (i) is or becomes generally available to the public other than as a result of disclosure by Supplier; (ii) was available on a non-confidential basis prior to its disclosure to Supplier; (iii) is or becomes available to Supplier on a non-confidential basis from a source other than Buyer when such source is not, to the best of Supplier's knowledge, subject to a confidentiality obligation with Buyer; or (iv) was independently developed by Supplier, without reference to the Confidential Information, and Supplier can verify the development of such information by written documentation;

(d) Within 14 days of the completion or termination of this Order, Supplier shall return to Buyer or destroy (with such destruction certified in writing to Buyer) all Confidential Information, including any copies thereof. No such return or destruction of the Confidential Information shall affect the confidentiality obligations of Supplier all of which shall continue in effect as provided for in this Order.

(e) Any knowledge or information, which Supplier shall have disclosed or may hereafter disclose to Buyer and which in any way relates to the Products purchased under this Order (except to the extent deemed to be Buyer's Property as set forth in Section 11 above), shall not be deemed to be confidential or proprietary and shall be acquired by Buyer free from any restrictions (other than a claim for infringement) as part of the consideration for this Order, and notwithstanding any copyright or other notice thereon, Buyer and its Affiliates shall have the right to use, copy, modify and disclose the same as it sees fit.

(f) Notwithstanding the foregoing, if Supplier is requested or required by interrogatories, subpoena or similar legal process, to disclose any Confidential Information, it agrees to provide Buyer with prompt written notice (no later than 2 days following receipt of such request) of each such request/requirement, to the extent practicable, so that Buyer may seek an appropriate protective order, waive compliance by Supplier with the provisions of this Section, or both. If, absent the entry of a protective order or receipt of a waiver, Supplier is, in the opinion of its counsel, legally compelled to disclose such Confidential Information, Supplier may disclose such Confidential Information to the persons and to the extent required without liability under this Order and shall use its best efforts to obtain confidential treatment for any Confidential Information so disclosed.

(g) If the parties hereto entered into a non-disclosure agreement ("NDA") concerning pre-Order negotiations and evaluations, the terms of this Order supersede the terms of such NDA with regard to all confidential information disclosed under the NDA.

14.2 Privacy and Data Protection. Supplier agrees that GE Confidential Information shall be subject to the organizational, technical, and physical controls and other safeguards set out in the PDPA located at <https://www2.gehealthcare.com/GEHCPurchaseTC.html>. If Supplier has access to Highly Confidential Information, Personal, Controlled or Sensitive Personal Data or to a GE Information System as defined in the PDPA, Supplier agrees to apply such additional safeguards and to grant Buyer such additional rights as are set out in the PDPA relating to such data. The capitalized terms set forth in this Section not otherwise defined in this Order shall have the meaning ascribed to them in the PDPA. In the event of any inconsistency of such defined terms, the definitions set forth in the PDPA shall prevail for purposes of interpreting the subject matter covered thereby. Supplier agrees that Buyer Confidential Information constitutes GE Confidential Information and shall be subject to the PDPA. In addition, Supplier understands and agrees that Buyer may require Supplier to provide certain personal information of Supplier's representatives to facilitate the performance of this Order, and that information shall be processed and maintained by Buyer as set forth in the PDPA.

14.3 Publicity. Supplier and its Subcontractors shall not make any announcement, take or release any photographs (except for its internal operation purposes for the manufacture and assembly of the Products), or release any information concerning this Order or with respect to its business relationship with Buyer or any Affiliate, or reference any of Buyer's Products to any third party except as required by applicable Law without Buyer or its Affiliate's prior written consent. Supplier agrees that it shall not, without prior written consent of Buyer or its Affiliates as applicable, (a) use in advertising, publicity or otherwise, the name, trade name, trademark logo or simulation thereof of Buyer or its Affiliate or the name of any officer or employee of Buyer or its Affiliates or (b) represent in any way that any Product provided by Supplier has been approved or endorsed by Buyer or its Affiliate.

15. INDEMNIFICATION.

15.1 Intellectual Property Indemnity. Supplier warrants that all Products provided and/or utilized pursuant to this Order, whether provided/used by Supplier or a Subcontractor, will be free of any and all claims. Supplier shall indemnify, defend and hold Buyer, its Affiliates and its and their customers, and each of its and their directors, officers, managers, employees, agents, representatives, distributors, resellers, sublicensees, contractors, successors and assigns (collectively, "**Indemnitees**") harmless from any and all claims against Indemnitees alleging infringement or misappropriation of any patent, copyright, trademark, trade secret or other intellectual property rights of any third party arising out of the use, sale, importation, distribution, reproduction or licensing of any Product furnished under this Order as well as any device or process necessarily resulting from the use thereof ("**Indemnified Product**"), including any use, sale, importation, distribution, reproduction or licensing in contravention of such Indemnified IP by Products as provided. Buyer shall notify Supplier promptly of any such suit, claim or proceeding and give Supplier authority and information and assistance (at Supplier's expense) for the defense of same, and Supplier shall pay all damages, costs and expenses incurred or awarded therein, including reasonable attorneys' fees.
